Advisory Business

Firm Description

MERIDIAN ADVISORY SERVICES, LLC, ("FIRM NAME") was founded in YEAR 2002.

MERIDIAN ADVISORY SERVICES, LLC provides personalized confidential financial planning and investment management to individuals and small businesses. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

MERIDIAN ADVISORY SERVICES, LLC is strictly a fee-only financial planning and investment management firm. The firm does not receive commissions for purchasing or selling annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

Investment advice is an integral part of financial planning. In addition, MERIDIAN ADVISORY SERVICES, LLC advises clients regarding cash flow, college planning, retirement planning, tax planning and estate planning.

MERIDIAN ADVISORY SERVICES, LLC does not act as a custodian of client assets. The client always maintains asset control. MERIDIAN ADVISORY SERVICES, LLC places trades for clients under a limited power of attorney.

A written evaluation of each client's initial situation is provided to the client, often in the form of a net worth statement. Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone, is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management may be beneficial to the client.

Principal Owners

James Carano is the 100% owner of the business.

Types of Advisory Services

MERIDIAN ADVISORY SERVICES, LLC provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services; furnishes investment advice through consultations; issues periodicals about securities by subscription; issues a client newsletter, and issues, charts, graphs, formulas, or other devices which clients may use to evaluate their performance.

On more than an occasional basis, MERIDIAN ADVISORY SERVICES, LLC furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that often include estate planning.

As of March 31, 2011, MERIDIAN ADVISORY SERVICES, LLC manages approximately \$45MM in assets for approximately 70 clients. All assets are managed on a discretionary basis.

Tailored Relationships

The goals and objectives for each client are documented in the client files. Investment policy statements are created that reflect the stated goals and objectives.

Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships.

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The *fee range is \$250 to \$1000 and is based on the*

complexity of the plan and is agreed to by the client prior to the engagement.. Since financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments.

In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary for up to one month. Follow-on implementation work is billed separately at the rate of \$96 per hour. If Meridian Advisory Services, LLC becomes the portfolio manager for the client, all future planning fees will be recovered from the monthly assets under management charge. (See Below)

Advisory Service Agreement

Most clients choose to have MERIDIAN ADVISORY SERVICES, LLC manage their assets in order to obtain ongoing in-depth advice and life planning. All aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the client in writing prior to the start of the relationship. An Advisory Service Agreement includes: cash flow management; insurance review; investment management (including performance reporting); education planning; retirement planning; estate planning; and tax preparation, as well as the implementation of recommendations within each area.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets according to the following schedule:

MERIDIAN ADVISORY SERVICES, LLC may terminate any of the aforementioned agreements at any time by notifying the client in writing within seven (7) days. If the client made an advance payment, MERIDIAN ADVISORY SERVICES, LLC will refund any unearned portion of the advance payment.

Fees and Compensation

Description

MERIDIAN ADVISORY SERVICES, LLC bases its fees on a percentage of assets under management and hourly charges.

Some *Retainer Agreements* may be priced based on the complexity of work, especially when asset management is not the most significant part of the relationship.

Financial plans are priced according to the degree of complexity associated with the client's situation.

Fees are not negotiable but must be approved by the client prior to implementation.

Fee Billing

Investment management fees are billed monthly, in *arrears*, meaning that we invoice you after the monthly billing period has *ended based on assets under*

management at the end of the period. Fees are usually deducted from a designated client account to facilitate billing based on the monthly statement received by the client. The client has 60 days to dispute any billing issue. The client must consent in advance to direct debiting of their investment account.

Fees for financial plans are billed upon delivery of the financial plan.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain individual stocks, mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

MERIDIAN ADVISORY SERVICES, LLC, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

New Advisory Service Agreement fees are calculated on a formula basis based on the type of asset under management, stocks, mutual funds, exchange traded funds and bonds. *The formula is based on assets under management within each asset group identified above.*

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to MERIDIAN ADVISORY SERVICES, LLC.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

MERIDIAN ADVISORY SERVICES, LLC reserves the right to stop work on any account that is more than 60 days overdue. In addition, MERIDIAN ADVISORY SERVICES, LLC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in MERIDIAN ADVISORY SERVICES, LLC's judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 30 days.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

MERIDIAN ADVISORY SERVICES, LLC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the clients.

Types of Clients

Description

MERIDIAN ADVISORY SERVICES, LLC generally provides investment advice to individuals and small businesses.

Client relationships vary in scope and length of service.

Account Minimums

The minimum account size is \$300,000 of assets under management, which equates to an annual fee of \$2,500.

When an account falls below \$100,000 in value, the minimum annual fee of \$720 is charged.

MERIDIAN ADVISORY SERVICES, LLC has the discretion to waive the account minimum. Accounts of less than \$300,000 may be set up when the client and the advisor anticipate the client will add additional funds to the accounts bringing the total to \$300,000 within a reasonable time. Other exceptions will apply to employees of MERIDIAN ADVISORY SERVICES, LLC and their relatives, or relatives of existing clients.

Clients receiving ongoing asset management services will be assessed a \$720 minimum annual fee. Clients with assets below the minimum account size may pay a higher percentage rate on their annual fees than the fees paid by clients with greater assets under management.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include charting, fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports,

prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that MERIDIAN ADVISORY SERVICES, LLC may use include Morningstar mutual fund information, Morningstar stock information, Zacks stock information, Investor's Business Daily, Fidelity Investment research and the World Wide Web.

Investment Strategies

The primary investment strategy used on client accounts is strategic asset allocation utilizing a core and satellite approach. This means that we use exchange-traded funds as the core investments and actively-managed funds as the core strategy and individual stocks and bonds where there are greater opportunities to make a difference. Portfolios are globally diversified to control the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives and risk profile stated by the client during consultations. The client may change these objectives at any time. Each client executes an Investment Policy Statement that documents their objectives and their desired investment strategy along with the specific risk tolerance.

Other strategies may include long-term purchases, short-term purchases, trading, short sales, margin transactions, and option writing (including covered options, uncovered options or spreading strategies).

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.

- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
